Directions: Pick one of your peer's presentation/mask and analyze (by circling) their description of their personality using the personality trait wheel below. Then, in the space below, summarize whether your peer's visual and verbal descriptions coincide with how you interpreted their personality on the trait wheel.

from what she explained I got that she was optimistic, sociable, outgoing, easygoing, even-tempered, and a little anxious on the inside. Her mask definitely showed what she was explaining.
